

Is your IP law firm
a good fit?

Consider the benefits
of choosing
just the right
boutique.

Quality and value

You'll find excellent value and expert legal services of uncompromising quality at Brown & Michaels PC, one of the most respected boutique law firms in central New York.

You can depend on us for meticulous documentation and follow-through, uniquely tailored to your needs. The proof is in our exemplary track record with Fortune 500 companies, and our extensive experience in a wide variety of high-tech fields.

Strategic advantages

At Brown & Michaels, you'll work with a proactive intellectual property firm that seeks approaches uniquely suited to your best interests.

You will maximize efficiency, for example, by relying on us to file only those patent applications on your behalf that are appropriate and necessary for your company to obtain and license specific technology.

- Maintain the high quality of your IP legal services while reducing costs – Brown & Michaels offers substantial value compared to larger firms and those located in metropolitan areas. You're always just a phone call, fax or e-mail away.
- Simplify your project management as a result of using the efficient reporting systems we customize for your company's procedures and requirements.
- Take advantage of our flexible billing options – hourly, fixed or project fees – to further suit your budget and schedule.

BROWN &
MICHAELS, PC

Call us at (607) 256-2000 for further details about how – *Our knowledge protects yoursSM*

Brown & Michaels, PC

is solely focused on intellectual property. Founded in 1980, our practice includes patents, trademarks, copyrights, trade secrets, licensing, litigation, portfolio evaluation, consulting and business start-ups. Our clients gain the benefit of our extensive experience in patent application prosecution and commercializing intellectual property.

Inventors, companies, and institutions of all sizes realize the many advantages of working with a medium-sized, boutique intellectual property firm, notably:

- **Accuracy**
- **Cost effectiveness**
- **Efficiency**
- **Flexibility**
